Get the most value from your process, manufacturing and stability data
QMS, EDMS, eCTD, CPV and easy cloud solutions- low costs and fast start-up

Speaker: *Dr. James Blackwell, President, The Windshire Group, LLC*

The Windshire Group, LLC is a premier global consulting firm that provides comprehensive CMC (Chemistry, Manufacturing, and Controls) and management services and solutions to biopharmaceutical (oral and parenterals), cell therapy, and medical device companies, and industry investors.

Our expert CMC consultants are industry veterans with broad, global experience within product companies and as consultants. Our team has worked with virtual companies to global conglomerates during all phases of the product life-cycle and on all aspects of CMC for parenterals, oral dosage forms, cell therapies, medical devices, oligonucleotides/peptides, and vaccines. We also provide leading products and services:

- Stabilityshire™- compliant stability data analysis/ reporting
- ProcessPad™- continued process verification
- QMS and ARCCSM- Software in Audit Ready Compliant Cloud
- RegDocs365- eCTD/eCOPY cloud solution
- InformashireSM- virtual/digital librarian and information research
- EVA portfolio and program analysis and optimization
- Value transformation of "unwanted"/ underperforming products
